

Good Morning All.

Please help the staff out with these rules and some track information. I know the PA is hard to hear sometimes.

Some Rules to remember this weekend to help things run smoothly.

- Radio station is 92.7 on an FM radio.

- Tech cards need to be completely filled and legible. All information was wiped from the computer at the end of last season.

- Tech is at the BACK of the STAGING LANES by the BIG Julesburg Dragstrip SIGN.

- Everyone NEEDS to Sign the WAIVER and Wear a WRISTBAND.

- Please only come to the lanes when your class is called.

- Stop at the Stop Sign in the staging lanes, Wait for GREEN LIGHT to flash before proceeding into water box.

- 1st car pulled out from Staging lanes goes to LEFT LANE. Left lane has right of way at the end of the track.

- Car Numbers and Dial-Ins go on the front windshield and passenger side window. Please make them big, bold and legible so we can read them.

- Crosstalk is on is Super Pro and Box Class. Please make sure the "N" is clearly marked on the Front Windshield and Passenger Side Window if you are NOT running Crosstalk.

- Helmets must be worn at all times on the track.

- NO BURNOUTS ON THE RETURN ROAD.

- Don't be racing around in any type of PIT Vehicle.

- Jr's when finished racing need to be picked up by their parents at the ticket shack and pulled back to the pits.

- If you break during TIME TRIALS, Please let the Front Office, Staging Lanes or the Computer Shack know that you broke so we can remove you from the car count.

- Please pick up after your dogs messes.

Thank you and Good Luck to all Racers.
